

EE-402A Topics in International Technology Management

Autumn 2010 Seminar Series Theme:

“Asia Technology Management in Energy and Cleantech Domains”

# *Solar Technologies and Businesses in Asia*

*Much of the current investment in Asia for renewable energy is in wind generation, but solar businesses and markets may be poised for especially rapid growth in a few years. Our panelists discuss different technologies, market conditions, industry players, and national initiatives, with focus on China and India.*
