

EE-402A Topics in International Technology Management

Autumn 2010 Seminar Series Theme:

“Asia Technology Management in Energy and Cleantech Domains”

# ***Energy Efficiency and a Cleaner Energy Perspective for India***

**Farhad Forbes**

**Director**

**Forbes Marshall Inc.**

*After giving an overview of the power generation scenario and policies for clean energy in India, Mr. Forbes focuses on the challenges of improving energy efficiency through reduced downtimes in power plants and better process management in industrial process plants. He also discusses distributed energy generation, especially from alternative sources such as waste fuel.*

*Mr. Forbes is responsible for the industrial Process Automation and Control Group of Forbes Marshall, a global company with advanced engineering products for process and power industries worldwide. At Forbes Marshall since 1982, he was earlier a member of the technical staff in HP Labs. He received the BSEE and MSEE from Stanford and also the MS in Management from the Sloan Program of the GSB, Stanford.*

**Thursday, October 28, 2010**

**4:15 - 5:30 PM**

**Skilling Auditorium, Stanford**

**Visitors Welcome • Light Refreshments**
